SUBJECT INDEX

a_w—See Water activity
Acid preservation of tomato juice 233
Adiabatic compression of meat 269
Agaricus bisporus—See Mushroom
Air flotation in protein recovery 763
Alginate effect on ice nucleation 587
Anthocyanin colorants from elderberry 605
Artichoke, Jerusalem, fructans from 509
Assay of
  cyanide in cassava 189
  heat treatment of meat 117, 123
  nisin in meat 1
  polyunsaturated fatty acids in fats 463
  protein digestibility 81
  soyprotein in meat products 19
ATPase, effect of frozen storage of meat on 9

B.E.T.
  monolayers 95, 103
  parameters for peas 503
Bacillus stearothermophilus spores to deteriorate UHT sterilization 385
Beans
  food characteristics of 487
  hardening of 731
Beef, frozen, protein denaturation in 9
Blanching of
  carrots, loss of nitrate during 401
  potatoes 577
Bran, rice, in bread 727
Bread, rice bran for fibre in 727
Brunauer, Emmett and Teller equation—See B.E.T.

Calcium in sugar 559
Calorimetry, differential scanning 9, 123
Canned mushrooms, use of xanthanin to prevent shrinkage 67
Carboxymethylcellulose, effect on ice nucleation 587
Carp 289
Carrots, loss of nitrate during blanching 401
Cassava, cyanide assay in 189
Chicken meat
  curing of 495
  irradiated, quality of 437
Chilling—See also Iced
  effect on quality of irradiated chicken meat 437
Chloride in sugar 559
Clausius–Clapeyron equation 95, 365

Coconut milk in infant feeds 711
Cocus nucifera—See Coconut
Cod, quality of 311
Cold shock reaction in iced fish 289, 301
Colour
  anthocyanin from elderberry 605
  of port 451
Computer simulation of blanching 577
Consumer acceptability of chilled and frozen fish 311
Corn, extrusion cooking of 61, 167, 365
Cowpea protein, infant feeds from 711
Cream liqueurs, homogenization of 229
Curing of chicken meat 495
Cyprinus carpio 289

D.E.F.T. 535
Debaryomyces in fermented sausage 615
Descriptive profiling, of soft drinks 175
Denaturation of protein 55, 279
Density of meat 269
Dietary fibre in bread, from rice bran 727
Differential scanning calorimetry of
  frozen meat 9
  heat-treated meat 123
Diffusivity of sorbic acid in gels 339, 477
Direct epifluorescent filter technique 535
Drying
  of grapes, kinetics 199
  of milled rice 75

Elderberry, anthocyanin colorant from 605
ELISA of soyprotein in meat products 19
Enzymatic release of metals from soy products 717
Enzyme linked immunosorbent assay—See ELISA
Enzymic hydrolysis assay of protein 81
Extraction of pectin from fruit 751
Extrusion cooking
  loss of volatiles during 365
  of corn products 61, 365
  of soy products 167, 627
  rheological study of 167
  role of hydrocolloids in 61
  thiamin retention during 569

Fats
  estimation of polyunsaturated fatty acids in 463
  vegetable, 'ghee' from 89
Fermented sausage, chemical analysis of 615
Fibre, dietary, in bread 727

Fish
acceptbility of chilled and frozen 311
iced, cold shock in 289, 301
silage 45
size, effect on proximate composition 443
sorption isotherms of 95
storage life of 159, 471
trimethylamine oxide-ase in 33
Flavour intensity determination 775
Flow behaviour of proteins 133
Freezing time, prediction of 209
Frozen fish
quality of 311, 471
trimethylamine oxide-ase in 33
Frozen meat, protein denaturation during storage of 9, 547
Fructose to fructan conversion 509
Functional properties of
frozen meat 547
soy protein, effect of heat on 279

Gadus morhua 311
Gels, diffusivity of sorbic acid in 339, 477
Ghee-like product from vegetable fat 89
Glycine max—See Soy
Grapes, drying kinetics of 199

Hake, sorption isotherms of 95
Hardening of beans 731
Heat
denaturation of protein 55, 279
sterilization efficiency 385
treatment of meat, assay of 117, 123
Hedonic-intensity link 775
Hedonic rating of food 355
Homogenization of cream liqueurs 229
Hydrocolloids in
canning 67
extrusion cooking 61
Hydrodynamic pulsation for pectin extraction 751

Ice-growth and nucleation, effect of stabilizers on 587, 683
Iced fish 159, 289, 301
Infant foods 711
Immobilized cells of *Kluyveromyces* 509
Immunoassay of soy protein in meat products 19
Instron measurements on peas 319
Ion-selective electrodes 559
Iron availability 255
Irradiated chicken, quality of 437

Jerusalem artichokes, fructans from 509

Katsuwonus pelamis 443
Kjeidahl analysis to determine previous heating of meat 117
Kluyveromyces conversion of fructose 509

Lactic acid as a decontaminant of meat 419
Lactobacillus in fermented sausage 615
Legumes—See also under individual names
  thiamin retention during extrusion cooking 569
Leiognathus 45
Lipid oxidation in fish silage 45
Liqueurs, cream homogenization of 229

Macrobrachium—See Prawn
Maize—See Corn
Martin Pea Tenderometer 319
Mathematical modelling of potato blanching 577
Meat and meat products
  assay of heat treatment of 117, 123
  assay of nisin in 1
  assay of soyprotein in 19
  decontamination by lactic acid 419
  dye reduction tests on 151
  fermented 615
  frozen, protein denaturation in 9, 547
  soyprotein in 19, 133, 279
  thermal properties of 269, 279
Merlangius merlangus 33, 311
Merlucius hubbsi 95
Metals, release from soy products 717
Microbiological decontamination of meat 419
Microbiological quality determination
  by D.E.F.T. 535
  by dye reduction tests 151
Micrococcus in fermented sausage 615
Milk, buffalo, effect of stabilizers on 331
Mushrooms, canned, shrinkage of 67
Mussel protein recovery by air flotation 763
Myosin, rheology of 133

Nisin, assay in meat 1
Nitrate
  in fermented meat sausage 615
  in sugar 599
  loss from carrots during blanching 401
Nutritional
  availability of iron in foods 255
  quality of protein, assay of 81

Oreochromis 289, 301
Ottawa Pea Tenderometer 319

Peaches, sorbic acid loss during storage of 517
Peas
  quality of 319
  sorption isotherms of 503
Pectin extraction from fruit 751
Phaseolus vulgaris 487, 731
Phenol mechanism in bean hardening 731
Phytate loss in bean hardening 731
Pisum sativum 319
Polysaccharide stabilizers, effect on ice growth 683
Polyunsaturated fatty acids estimation 463
Port, colour of 451
Potatoes, blanching of 577
Poultry meat processing 663
Prawn, cooked, texture of 643
Prediction of
  freezing times of foods 209
  water activity of solute mixtures 221
Preservation of tomato juice 233
Prochilodus platensis 471
Profiling, descriptive, of soft drinks 175
Protein
  denaturation by heat 55, 279
  denaturation during frozen storage 9, 547
  digestibility, assay of 81
  recovery by air flotation 763
  rheology of 133

Quality of
  frozen fish 311
  iced fish 301, 311
  milled rice 75
  peas 319

Resazurin reduction tests on meat 151
Rice
  bran, to provide dietary fibre in bread 727
  drying of 75
Ross' equation for a_w 221
Salmo irideus—See Trout
Sambucus nigra—See Elderberry
Scanning electron micrographs of proteins 133
Sensory evaluation
  hedonic ratings 355
  of chilled and frozen fish 311
  of colour of port 451

of flavour intensity 775
of soft drinks 175
Shear characteristics of proteins 133, 167
Silage from fish 45
Skipjack tuna, effect of size on composition 443
Soudjouk 615
Sorbic acid
diffusivity 339, 477
loss during storage of peaches 517
Sorption isotherm 103
of peas 503
of raw fish 95
Soy products, enzymatic release of metals from 717
Soy protein
extrusion cooking of 167, 627
in infant feeds 711
in meat, assay of 19
rheology of 133
thermal denaturation of 55, 279
Specific heat of meat 269
Stabilizers
effect on buffalo milk 331
effect on ice nucleation and growth 587, 683
Sterilization, UHT, efficiency 385
Storage life of fish 159, 471
Sugar, inorganic ions in 559

Tetrazolium reduction tests on meat 151
Texture of
cooked prawns 643
peas 319
Thermal
denaturation of protein 55
expansivity of meat 269
Thiamin retention during extrusion cooking 569
Thiobarbituric acid values of fermented sausage 615
Tilapia 289, 301
TMAO-ase in frozen fish 33
Tomato juice, low pH preservation 233
Trimethylamine oxide-ase in frozen fish 33
Trout, rainbow, shelf life of 159
Tuna, effect of size on proximate composition 443
TVP, thiamin retention in 569

UHT sterilization efficiency 385

Vegetable fat, 'ghee' from 89
Vigna unguiculata 711
Viscosity of proteins 133, 167, 279

Volatile compounds, loss during extrusion cooking 365

Water activity of solute mixtures 221
Whiting 33, 311

Xanthan
effect on ice nucleation 587
to prevent shrinkage of canned mushrooms 67

REVIEW PAPERS INDEX

Availability of iron from foods 255
Lactic acid: considerations in favour of its acceptance as a meat decontaminant 419
The direct epifluorescent filter technique 535
Application of science and technology to poultry meat processing 663

BOOK REVIEW INDEX

Advances in Cereal Science and Technology, Vol. 7 115
Advances in Refrigeration and Heat Pump Technology, Vols 1 & 2 658
Amino Acid Composition and Biological Value of Cereal Proteins 415
Analysis of Food Carbohydrates 523
Amino Acid Composition and Biological Value of Cereal Proteins 415
Aseptic Processing and Packaging of Foods 527
Basic Science for Food Studies 247
Biotechnology Biotransformations 112
Cheesemaking Practice 658
Common Fragrance and Flavor Materials 654
Developments in Meat Science, Vol. 3 526
Developments in Soft Drinks Technology, Vol. 3 114
Diet-Related Diseases: The Modern Epidemic 521
Digestibility and Amino Acid Availability in Cereals and Oilseeds 655
Ethylene and Plant Development 115
Evaluation of the Role of Microbiological Criteria for Food and Food Ingredients 651
Farinograph Handbook 115
Food Allergy 251
